Maxxforce Engine Problems | Miller Weisbrod, LLP

By the way just for everyone's information the engine is manufactured by Mann International adds the emissions crap to them. The problem is not the engine manufacturers the problem is CARB and the EPA. When Governments want money they create regulations that create industries. It has nothing to do with the environment it is all about money.

How Navistar solved its EGR problems - Truck News

Navistar's Wrong Diesel Engine Technology Costing Millions. Sometimes betting on the wrong horse can cause a truck load of trouble, and an awful lot of money. Navistar International Corp. recently reported a fiscal third-quarter net loss of \$28 million. Navistar's last profitable quarter came in mid-2012 and much of Navistar's problems stem from the fact that they bet on the wrong diesel engine technology.

Navistar's Wrong Diesel Engine ... - Trucks and Parts

The International Harvester Company (IHC) has been building its own proprietary truck engines since the introduction of their first truck in 1907. International tended to use proprietary diesel engines. In the 1970s, IHC built the DVT 573 V-8 diesel of 240 and 260 hp (179 and 194 kW) but these were not highly regarded and relatively few were sold.
