### On Monsters An Unnatural History

Less an individual history of famous monsters and creatures of folklore, but more a history of the monster and the monstrous. Asma does a particularly nice job linking social morays and beliefs with our need to create "the other" throughout the history of civilization. Highly recommended for monster and social philosophy geeks alike.

Hailed as "a feast" (Washington Post) and "a modern-day bestiary" (The New Yorker), Stephen Asma's On Monsters is a wide-ranging cultural and conceptual history of monsters--how they have evolved over time, what functions they have served for us, and what shapes they are likely to take in the future. Beginning at the time of Alexander the Great, the monsters come fast and furious--Behemoth and ...

### On Monsters: An Unnatural History of Our Worst Fears ...

Monsters embody our deepest anxieties and vulnerabilities, Asma argues, but they also symbolize the mysterious and incoherent territory beyond the safe enclosures of rational thought. Exploring sources as diverse as philosophical treatises, scientific notebooks, and novels, Asma unravels traditionalmonster stories for the clues they offer about the inner logic of an era's fears and fascinations.

For those wondering what to call a furry quadruped with a bladder built to shoot caustic excrement at enemies, Stephen T. Asma, a professor of philosophy at Columbia College in Chicago, has a new book to help out: *On Monsters: An Unnatural History of Our Worst Fears*. It's packed with tales of penis-stealing witches and spine-tingling stories of human depravity that make Danny Boyle's ...
